FRAMHERJI FRÁ FLAGBJARNARHOLTI

IS2007186651

Framherji is a fourgaited stallion with elastic movements, good self-carriage and a nice character. In 2019 he received first prize for offspring in Iceland. And for good reason: in 2020 15 of his children were judged, 9 of which got first prize. His offspring have long legs, a cylindrical body and good leg and hoof quality. They are known for their high movements and long strides.

Framherji is judged as a 5 year old with 8.27. He received 8.39 for conformation and 8.19 for ridden abilities as a fourgafter. He scored 9 for tölt, trot, form and spirit. He is genetically tested AA.

His father is Hágangur frá Narfastöðum. He received first prize for offspring in 2011. His mother is Surtsey frá Feti. She has 6 offspring with first prize.

COVERING INFORMATION

Framherji will be available through frozen semen during the entire covering season.

HRAUNAR FRÁ HROSSHAGA

IS2012188621

Hraunar scored 8.24 in total as a 4 year old at Landsmót 2016. He has 9 for tölt and the amazing score of 9.5 for slow tölt. He received 8.29 for conformation and with a size of 1.43m is he a real eyecatcher. Hraunar has been proving himself in sport: he scored 7.47 in fourgait and 7.60 in T1.

Hraunars first offspring are coming under the saddle. They are good looking, have long legs and a strong topline.

His father is Kjarni frá Þjóðolfshaga. He has 9,5 for tölt and has first prize for offspring. His mother is a daughter of Sveinn-Hervar frá Þúfu, who is known for giving great competition horses.

Fun fact: Jakob Svavar Sigurdsson had his former mare Gloria (world champion 2017) covered by Hraunar.

COVERING INFORMATION

Hraunar is covering by hand from the beginning of August until the end of September.

COVERING CONDITIONS

The mare will only be accepted when a bacteriologic test of the cervix with a negative result is presented. This test cannot be older than 28 days before arrival of the mare. Next to that, the mare will only be accepted if a negative CEM test is presented, which cannot be older than 90 days before arrival. This CEM test must be taken from the clitoris (This can also be done unproblematically with pregnant mares and mares with a foal on foot).

The studfee is mentioned per stallion. For all stallions a non refundable deposit is charged as registration. The registration of the mare is only valid when the deposit has been paid. When the mare is pregnant the owner will get an invoice with the studfee, stable costs and veterinarian costs.

The mare should be a pure-bred Icelandic horse, registered in WorldFengur by FEIF. The mare-owner should hand in the passport of the mare upon arrival of the mare. The passport will be kept by Hengstenhouderij Van Nunen and will be returned when the mare is picked up. The mare must be declared healthy and in good shape to be a breeding mare. The mare must be vaccinated according to the rules of FEIF. She must be dewormed less than a week before she is brought to the stallion.

The mare must have newly trimmed hooves and must be brought without shoes. When the mare is standing alone in a paddock to be inseminated she does not have to come without shoes.

Hengstenhouderij van Nunen does not accept any liability for damage, illness / and injury to people, animals, means of transport or otherwise. Horses are treated at the owner's risk. The mare owner is responsible for all costs.

The mare owner will pay daily stable costs. For mares that are standing in a group on a field the daily costs will be 8,- euros per day. For mares with a foal on foot the daily costs will be 10,- euro per day. For mares standing alone in a paddock the price will be 12,- per day. For mares standing in a paddock with a foal on foot the price will be 14,- per day. For mares with summer eczema the price will be 5,- euros per treatment (upon the owner's request). The costs for a covering coupon will be 14,- euros per mare, and has to be paid by the mare owner. All prices are including VAT.

COVERING CONDITIONS

We do not send semen. That means every mare who has to be inseminated has to come to Hengstenhouderij Van Nunen. Next to that, our own veterinarian will scan the mare for insemination. There is only a limited amount of frozen semen available so we want to control the process ourselves.

We charge a deposit of €200,- euros for the insemination. This deposit allows the mare to be inseminated twice. If she is not pregnant after these two attempts and the owner wants to try again we will charge an extra €150, -.

You can sign up through the form on our website: www.hengstenhouderijvannunen.nl. When we have received your data, we will contact you. Then you will receive also an invoice for the deposit. Watch out: the registration of the mare is only valid when the deposit has be paid.

We aim to deliver excellent service to our customers. If you have any questions concerning the stallions and/or the covering conditions, please do not hesitate to call us. You can find the contact details on the next page.
