Stallion brochure

2023

www.hengstenhouderijvannunen.nl

Dear Breeder,

With the new breeding season in prospect, is it time to consider which stallion will best suit your mare.

We offer again high-quality stallions this year. We want to give breeders from the Netherlands and abroad the chance to breed with the best stallions from the world and take your breeding to a higher level.

The talented stallions we offer have already proven themselves in sport, FIZO and breeding. These stallions belong to the top of the Icelandic horses.

We are very proud and grateful for the collaborations with stallion owners from abroad. We hope to make it a success again for you as a breeder.

GENERAL CONDITIONS 2023

The general terms and conditions apply to all coverings through Hengstenhouderij van Nunen in 2023. All studfees are exclusive VAT, shipping costs and any documents. By registering and ordering semen the mare owner declares to have taken note of our breeding and payment conditions and agrees to these conditions.

We require a PCR CEM test of the mare. The test will be taken at Hengstenhouderij van Nunen as soon as possible after arrival. If the mare tests positive on CEM the mare must be picked up and treated at home.

We recommend a bacteriological test of the uterus. This test can be taken before arrival, or at Hengstenhouderij van Nunen. If the mare is unclean on the swab-test it is possible to have her treated here. Bacteriological test is not required.

There is no requirement for a bacteriological / CEM test if the mare will be inseminated at home, but we strongly recommend.

The mare:

- Is brought without shoes and with well-groomed hooves.
- Is vaccinated according to the FEIF rules.
- The passport + possible test results are taken before arrival.
- The mare must be healthy and recently dewormed.

Mares are inseminated, scanned and treated at the expense and risk of the mare owner.

If necessary the mare owner gives us the right to call a veterinarian in an emergency at the expense of the mare owner.

Mares with aggressive behavior or who are difficult to catch will be put in a separate paddock at the owner's expense.

The bookingfee is €300 exclusive VAT 9%. The bookingfee is non-refundable and must be booked before the mare is brought or semen is ordered. When the mare is scanned pregnant, the bookingfee will be withdrawn from the total covering fee.

Mares must be pregnancy scanned between 15 and 21 days after ovulation and the result must be reported to Hengstenhouderij van Nunen immediately after. The remaining amount for the covering + other expenses will be invoiced when the mare is pregnant +15 days. Payment period of 14 days.

If the mare does not become pregnant during the season, only booking fees and other expenses such as shipping, field, insemination and veterinarian costs will be charged if applicable.

Mare owners can register their mare through our website. Here you can choose the method of delivery:

- The mare will come to Hengstenhouderij van Nunen (we will take care of the whole process)
- The semen will be sent by courier (if possible)
- The mare owner will pick up the semen at Hengstenhouderij van Nunen.

For each delivery shippingcosts will be charged to the mare owner.

Semen must be ordered before the specified time. orders after this time will be processed the next day.

The following points below only apply to Arthúr:

Semen must be ordered before 08:45 in the morning.
